Member, Rotary International's India National Polio Plus Committee, 2010-2012
[NCM for RI. Dist 3240 & 3291]
Rorary International
West Bengal

Sub: Arrangement of Promotional materials ,Vaccine Carrier and Ice Pack

Dear Mr. Bose,

At first as a Nodal person I want to express my sincere thanks & gratitude to you & other Rotarians for their overwhelming support to Murshidabad district in IPPI programmes.

The series of organized health camps even with the help of Paediatricians from outside murshidabad (RI 3291) has helped us to reduce vaccine avoidance behaviour.

The promotional materials has helped us to increase booth coverage, **12526** child more vaccinated in HP areas on booth day of Jan SNID compared to Nov. mainly due to supply of Ball.

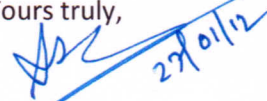

This is to inform you that the district authorities were trying their best to utilize their resources optimally and for this reason we need 600 Vaccine Carrier and additional 10000 Ice Packs to strengthen Cold Chain system.

Also for NIDs 10 lakh balls needed to enhance the booth coverage as a promotional material.

You are hereby requested to take necessary steps so that this district can get the above items and vaccinate all kids with ease.

Thank you.

Yours truly,

27/01/12

Chief Medical Officer of Health
Murshidabad
